# XaaS Anything as a Service

- Many cloud providers also offer other 'as a Services'

- These are sometimes described as XaaS 'Anything as a Service'

- Examples include:

- DaaS Desktop as a Service

- DRaaS Disaster Recovery as a Service

- BaaS Backup as a Service

- Storage as a Service

- And many more

BaaS Backup as a Service

Wide Area Network

- This is an active/standby model

- The customer has a traditional On Premises deployment with minimal infrastructure provisioned at the Cloud Provider

- Data is replicated from Company Office to Cloud Provider storage

- Infrastructure can be quickly provisioned at Cloud Provider if customer experiences disaster at Company Office

DaaS Desktop as a Service
